### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The claimed structure is an SOI substrate with a dielectric layer on top, and a silicon layer on top of the dielectric layer where there are optical component areas and electrical component areas and there is an interconnect arrangement. Davids et al. show a structure with an SOI substrate and electrical and optical components (waveguides) but there is no upper silicon layer and the electrical component are in the SOI substrate. Additionally there is no interconnect structure. Deliwala shows a structure with an SOI substrate, optical components (waveguides) and electrical component with an interconnect structure but does not show an upper silicon layer and the electrical components are in the SOI layer. Thus the claimed structure is not shown in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas A Wille whose telephone number is (571) 272-1721. The examiner can normally be reached on M-F (6:15-2:45).
